# A GENUINE ART

The company was founded on Pietro Gentilini's intuition when he decided to make hot biscuits for all of Rome in his shop. Success arrived quickly and the step from shop to factory was short. Today the company is a leading manufacturer on the biscuits and rusks market. Handicraft, experience, time and research, these are the real values of the artisan, but they

are especially the values of good, well-made products, just like those by Gentilini.

**Famous biscuits since 1890.**

# HANDICRAFT, EXPERIENCE

Handicraft as an ability, capacity and skill. The art of defending the virtuous co-existence between advanced industrial processes and craftsmanship. Like in the production of the famous Novellini biscuits, with a traditional wire-drawn process, combined with the workmanship of expert, able hands, to guarantee unique crispness, taste and fragrance.

Just like the rusks which, respecting the oldest artisan processes, require over 10 hours work to be so good, thick and golden.

And Osvego biscuits too, where the human factor is essential in dosing to obtain the organoleptic qualities that make them stand out.

We know the best products are created combining the best ingredients with real passion and the experience that only centuries of dedication can give. Ours, to be precise. And this is why we only select the highest quality raw materials and transform them into the best biscuits.

In fact, the quality of our products derives from unique, closely guarded, top secret recipes handed down through various generations, and still the same as in 1890. Because the best things don't need changing.

# TIME, RESEARCH

The first and most important ingredients have never changed since 1890. They are the passion and incomparable talent of a family running a genuine business. Passion and tradition, tricks and secrets of the trade are passed down from father to son and always orientated towards the search for excellence.

Just like an artisan and his work, one of our most important values is respect for slowness which means dedication, care and attention and knowing that you never stop learning. This know-how is in fact essential for finding new stimuli.

In this virtuous process, the certification obtained over the years, such as ISO 9001:2000, is an acknowledgement of our continuous search for quality.

## *with malt and honey*

There are authentic flavours full of goodness and enticing fragrances you can't resist; all this is Osvego with malt and honey.

A unique biscuit, still made using the original recipe dating back more than a century, which only wants noble and natural ingredients: butter, flour, malt and wild flower honey, carefully processed, then slow baked and packaged while still hot.

Always fragrant, with a strong and decisive flavour, this is the character of our Osvego biscuit.

# OSVEGO WITH CHOCOLATE

This is the sweet history of chocolate, where tradition meets temptation and, even if it's impossible to make Osvego even better, we made it sweeter.

The basic ingredients are common ones: flour, butter, honey, milk, sugar, malt and, then, the addition of the most distinguished dark cocoa and dark chocolate.

The captivating pleasure is immediately released of chocolate with a bitter and decisive note, allowing you to appreciate the sweetness of this biscuit, immediately followed by an irresistible taste that tempts the palate.

# NOVELLINI

## *with milk and honey*

One of the sweetest memories as a child is the aroma of freshly baked hot biscuits, the avid, hungry eyes, the first bite full of expectation and that explosion of taste that leaves you breathless.

Pietro Gentilini clearly understood the feeling, which was imprinted in his mind and which he really wanted to recreate. And so, as an adult, he would test and retest products in his laboratory until he found the perfect combination.

He only choose the best ingredients to obtain the softest dough, the wire-drawn process that caresses the dough making it crispy, the oven baking at the right temperature to enhance the taste and, to preserve all the flavour, he packaged the product just out of the oven.

That's how Novellini came to be, with Pietro's dream continuing to be a reality.

## *with buckwheat flour and wheat germ toasted*

The return of authentic flavours and the rediscovery of ingredients from the past have inspired this truly unique recipe thanks to the knowledgeable use of buckwheat flour, with a full and balanced taste, and toasted wheat germ with its important nutritional properties.

It is prepared respecting the Novellini tradition that involves a wire-drawn passage to roughen the biscuit and give it its porosity, ideal for dunking in milk! To emphasise the power of nature without renouncing lightness, buckwheat and wheat germ Novellini biscuits have 40% less fat than the average most sold shortbread biscuits.

# FETTE BISCOTTATE – RUSKS

*classic - toasted - whole wheat*

Gentilini Rusks offer more than a simple slice. The recipe has remained loyal to the original because the best things don't need changing. They are slowly and carefully made by skilled and enthusiastic hands, the reason for their thickness. The aroma is an enticing one because it is full of goodness, genuineness and authenticity. Each version is a feast of flavours that celebrates artisan tradition.

Classic Rusks are delicately sweet, good and fragrant, like any biscuits they are irresistible by themselves.

The large, robust and crispy Toasted Rusks are not as sweet and are surprisingly versatile and simple.

Whole Wheat Rusks have the full-bodied flavour of whole wheat flour, an ideal sweet or savoury accompaniment.
